

METALLURGIA—Index to Volume XL

Published by the Kennedy Press, 31, King Street West, Manchester, 3

MAY—OCTOBER, 1949

A	Page		Page		Page
Acid-Resisting Silicon Iron, High Duty Applications of, By R. V. Riley, Ph.D., B.Sc., A.I.M.	185-188	Cast Iron, The Addition of Tungsten to, By J. E. Hurst, D.Met., F.I.M., J.P.	101-102	Engineering Equipment, Packaging of, Report by P.E.R.A.	272, 281-282
Air-vessel Assemblies (High-pressure), The Welding of, By K. G. Lewis, M.Sc., F.R.I.C., F.I.M.	77-87	Co-operative Research Activities, (Reports of Research and Development by British Assocs.)	257-272	Export Conditions Changing.	67
Aluminium Alloy (Nominally Isotropic) under Combined Stress Systems at Elevated Temperatures, The Creep of an, By A. E. Johnson, M.Sc., M.Sc. Tech., A.M.I.Mech.E.	125-139	Copper Alloy Scrap, The Recovery of By-product Metals in the Smelting of, Survey of Published Information. By Marjorie E. Whitaker, B.Sc., A.I.M.	295-304	F	
Aluminium Alloys, The Welding of, By W. I. Pumphrey, M.Sc., Ph.D.	239-245	Corrosion and Heat-Resisting Service, Sand Cast Nickel Alloys for, By W. H. Richardson, B.Sc., A.I.M.	3-14	Ferro-Alloy Briquettes, New Plant for the Production of, Fluidity (Casting), The Measurement and Characteristics of, By V. Kondie, B.Sc., Ph.D.	246-248
Aluminium Building for the Royal Show.	163-164	Corrosion of Metals. London and South Eastern Counties Section of the Royal Institute of Chemistry. By Dr. F. Wormwell	164	Foundries, Productivity in,	294
Aluminium Pots and Pans.	53-54	Creep (The) of a Nominally Isotropic Aluminium Alloy under Combined Stress Systems at Elevated Temperatures. By A. E. Johnson, M.Sc., M.Sc. Tech., A.M.I. Mech.E.	125-139	Foundry, Amenities in the,	177
Assemblies, High-pressure Air-vessel, The Welding of, By K. G. Lewis, M.Sc., F.R.I.C., F.I.M.	77-87	Cupola, Adjusting Composition in the,	335-336	Foundry Industry, Management in the,	124
B		Cyanide-Containing Salt Baths, Casehardening Steels in, By F. D. Waterfall, F.I.M.	29-36, 43	Foundry Steel-melting Conference, Cupola/Converter Process. F. Cousins.	313
Bessemer Process, The,	150-154	D		The Design of Converters. A. G. Robiette.	313
Briquettes (Ferro-alloy), New Plant for the Production of, Britain Displays Her Products.	335-336	Design in Powder Metallurgy. By H. W. Greenwood.	255-256	Liquid and Gas Flows in Side-Blown Converter Models. Mr. Newby (B.I.S.R.A.).	313-314
British Cast Iron Research Association. (Report of Progress). By Dr. J. G. Pearce.	266-267	Devaluation and Recovery.	293	Controlling Sulphur and Phosphorus Contents. A. J. Langner	314
British Ceramic Research Association. (Review of work). By A. E. Dodd, M.Sc., F.R.I.C.	268-269	Dies, The Life of,	326	Application of Oxygen Enrichment. Dr. W. C. Newell.	314-315
British Industries Fair.	17-28, 55-60	Dislocation Theory of Slip, The, By F. R. N. Nabarro.	199-205	Electric-Are Process. J. H. Pearce and W. Bramhall	315
British Iron and Steel Industry.	141-142	Ductile Titanium, The Preparation and Some Properties of, By H. W. Warner, M.Sc.	69-76	Refractories for Electric Furnaces. Dr. Rait.	315-316
British Iron & Steel Research Association. Summary of some of the more interesting and immediately important projects in hand.	257-261	E		Electrical Characteristics, Output and Design of Arc Furnaces. J. C. Howard.	316
British Non-Ferrous Metals Research Association. Review of work. By W. L. Hall, B.Sc., A.R.S.M.	262-266	Educational Work in Steel Plants.	307	Open Hearth Process. J. Mowat.	316
British Welding Research Association. (Review of Progress.) By W. K. B. Marshall, B.Eng., A.I.M.	269-272	Electric Furnaces in the Metal Industries. By G. Reginald Bashforth, F.I.M.	249-254, 304-307	Steel Foundry Productivity. F. A. Martin.	316
By-product Metals (The Recovery of) in the Smelting of Copper-Alloy Scrap. Survey of Published Information. By Marjorie E. Whitaker, B.Sc., A.I.M.	295-304	Electric Iron-Ore Smelting. By Dr. Mohammed A. Kassem.	145-149	Foreign Practice. A. C. Brearley.	316-317
C		Electron Microscope, Metallurgical Achievements of the, Review of the Literature to the end of 1948. By G. A. Geach, M.Sc., Ph.D., F.I.M.	319-326	High Frequency Process. C. McNair.	317-318
Cadmium, The Electrolytic Estimation of, from Sulphuric or Perchloric Acid Solutions. By G. H. Osborn, A.R.I.C., A.M.Inst.M.M.	111-113	Electrolytic Estimation (The) of Cadmium from Sulphuric or Perchloric Acid Solutions. By G. H. Osborn, A.R.I.C., A.M.Inst.M.M.	111-113	Metal Fluidity. J. E. Worthington.	318
Carbides, Interplanar Spacings of, in Steels. By H. J. Goldschmidt, M.Sc., A.Inst.P.	103-104	Engineering and Marine Exhibition. Exhibits:	209-227	Melting Costs. F. N. Lloyd.	318
Casehardening Steels in Cyanide-Containing Salt Baths. By F. D. Waterfall, F.I.M.	29-36, 43	Steel	209-211	Fourth Empire Mining and Metallurgical Congress. Presidential Address.	206-207
Casting Fluidity, The Measurement and Characteristics of, By V. Kondie, B.Sc., Ph.D.	246-248	Non-Ferrous Metals.	211-214	Fourth Empire Mining and Metallurgical Congress. The Zinc Smelting Industry in Great Britain. S. W. K. Morgan.	207
Castings, Steel-making for, By E. C. Pigott.	155-158, 190-193	Castings.	214-215	The Nickel Industry: Twenty Years On, Sir William Griffiths, D.Sc.	207-208
		Plant and Equipment	215-218	Future Trends in the British Iron and Steel Industry. Sir Charles Goodeve, F.R.S.	208
		Small Tools.	218-219	Some Aspects of the Use of Refractory Materials. F. H. Clews and A. T. Green.	208, 228
		Electrical Equipment	210-222	Extraction, Alloying and Fabrication of Magnesium. Major C. J. P. Ball, D.S.O., M.C., F.R.Ae.S.	228
		Instrument and Testing Equipment.	222-223	Recent Progress in the Metallurgy of Copper and Copper Alloys. Maurice Cook, D.Sc., Ph.D., F.I.M.	228
		Miscellaneous.	224	Furnace Atmospheres, Indicator for Small Amounts of Oxygen in Reducing. By G. W. Rathenau and H. de Wit	114
		Engineering and the National Drive.	183	Furnaces (Electric) in the Metal Industries. By G. Reginald Bashforth, F.I.M.	249-254, 304-307

	Page
G	
Galvanising, Hot-Dip. By T. B. Crow, Ph.D., F.R.I.C.	14-16
Government Sponsored Research,	109-110
H	
Hardening and Tempering of Steel, Some Factors Involved in the, Dr. Morris Cohen.	308-312
Heat-Resisting Service and Corrosion, Sand Cast Nickel Alloys for, By W. H. Richardson, B.Sc., A.I.M.	3-14
Heat Treatment, Casehardening Steels in Cyanide-Containing Salt Baths. By F. D. Waterfall, F.I.M.	29-36, 43
Heat Treatment Furnace Installations.	44-53
High Duty Applications of Acid-Resisting Silicon Iron. By R. V. Riley, Ph.D., B.Sc., A.I.M.	185-188
High Frequency Induction Heating Process, Some Applications of the, By J. C. Howard.	37-43
High Frequency Induction Heating. (New Forge at John Garrington & Sons Ltd.)	332-334
High-pressure Air-vessel Assemblies, The Welding of, By K. G. Lewis, M.Sc., F.R.I.C., F.I.M.	77-87
Hot-Dip Galvanising. By T. B. Crow, Ph.D., F.R.I.C.	14-16
Household Utensils in Aluminium.	53-54
Hydrogen Reduction, The Estimation of Oxygen in Metals by, By W. A. Baker, B.Sc., F.I.M.	188-189
I	
Indicator for Small Amounts of Oxygen in Reducing Furnace Atmospheres. By G. W. Rathenau and H. de Wit	114
Induction Brazing Methods Applied to Permanent Magnets. By D. Hadfield.	165-166
Induction Furnaces, Radio-Frequency, (A New Metropolitan-Vickers' Unit).	336
Induction Heating (High Frequency). (New Forge at John Garrington & Sons Ltd.).	332-334
Induction Heating Process (High Frequency), Some Applications of the, By J. C. Howard.	37-43
Industrial Research.	237
Institute of British Foundrymen.	
Stress Relief Heat Treatment of Alloy Cast Iron.	173
The Influence of Heating Rate in Malleable Iron Annealing.	173-174
The Effect of Stripping Temperature on the Properties of Pearlitic Grey Cast Iron.	174
Factors Controlling the Hot-Tearing of Aluminium Casting Alloys.	174-175
Examples of Aluminium-Alloy Foundry Practice.	175
Some Notable Aluminium-Alloy Castings.	175
Experiences with Ethyl Silicate in the Foundry.	175-176
Mechanical Properties of Some Copper-Base Alloy Castings.	176
The Work of the Lake & Elliot Foundry Technical Committee.	176
Institution of Metallurgists, A.G.M.	177-178

Interplanar Spacings of Carbides in Steels. By H. J. Goldschmidt, M.Sc., A.Inst.P.	103-104
Iron & Steel Institute, A.G.M. President's Address.	98
Iron and Steel Institute.	
The Conversion to Oil Firing of the Open Hearth Furnaces at Park Gate Works. D. F. Marshall, B.Sc., Ph.D., and H. C. White.	90-92
An Electrical Pressure Meter for the Measurement of Open-Hearth Furnace Differential Pressures. S. S. Carlisle and B. O. Smith.	92-93
The Determination of Oxygen in Liquid Steel by the Aluminium-Killed Bomb Method. G. E. Speight, B.Sc., F.R.I.C., F.I.M.	93
A Co-operative Examination of Manganese-Molybdenum Steel. T. E. Rooney, A.M.C.T., F.R.I.C.	93
A Co-operative Examination of a Nickel-Chromium Steel. T. E. Rooney, A.M.C.T., F.R.I.C.	93
The Determination of Hydrogen in Liquid Steel. G. E. Speight, B.Sc., F.R.I.C., F.I.M., and R. M. Cook, B.Sc.(Eng), A.Met.	93-94
A Co-operative Examination of the Distribution of Non-Metallic Inclusions in Billets from a Mild-Steel Ingot. T. E. Rooney, A.M.C.T., F.R.I.C.	94
The Thermodynamics of Substances of Interest in Iron and Steelmaking from 0°-2,400° C. F. D. Richardson and J. H. E. Jeffes.	94-95
Large Crystal Grain-Size in Silicon-Chromium Valve Steel. C. C. Hodgson, A. Met., F.I.M., and H. G. Baron, B.Sc., L.I.M.	95-96
Grain Growth in Silicon-Chromium Valve Steel. H. Allsop, A.Met., F.I.M., and P.W. Bygate, A. Met.	96
The Structure of Carbides in Alloy Steels. H. J. Goldschmidt, M.Sc., A.Inst.P.	96-97
Present Methods of Open-Hearth Furnace Charging. E. L. Diamond, M.Sc., M.I.Mech.E. and A. M. Frankau, M.A.	97
The Influence of Heat Transfer on Open-Hearth Furnace Charging Time. M. W. Thring, M.A., F.Inst.P.	97-98
The Layout of Integrated Iron and Steel Works. H. H. Mardon, B.Sc., M.I.C.E., M.I. Mech.E., M.I.Struct.E., and J. S. Terrington, B.Sc., A.M.I.C.E., A.M.I.Struct.E.	99-100
Iron and Steel Institute. Summer Meeting in Norway.	
Some Notes on Brittleness in Mild Steel. Johan Gorrissen.	167
Experiences in the Study of Isothermal Transformations. T. F. Russell, F.I.M., and C. Mavrocordatos, B.Met.	168
Determination of an Isothermal Transformation Diagram with an Optical Dilatometer. J. K. L. Andersen, Met. Eng.	168

The Acceleration of the Rate of Isothermal Transformation of Austenite. M. D. Jepson, M.Sc., and F. C. Thompson, D.Met., M.Sc., F.I.M.	168-196
The Properties of Olivine and its Use for Refractories and Moulding Sands. K. J. Sten-vik.	169
The Manufacture of Electric Steel in Great Britain. Electric Process Sub-Committee of the Steel Making Division of B.I.S.R.A.	169-170
The Soderberg Electrode System. H. Christiansen, Jnr., and B. Ydstie.	170
The Electrochemical and Electrometallurgical Industry of Norway. C. W. Eger.	170
A Brief History of Electric Pig-Iron Smelting in Norway. H. Christiansen, Jnr.	170-171
Features from the Planning of an Electric Smelting Plant for Pig-Iron at MO I Rana. B.M. Muller.	171
Determination of Red-Shortness in Mild Steel. Johan Gorrissen.	171-172
Iron and Steel, Phosphate Processes for, with special reference to Rust-proofing. By E. E. Halls.	159-163, 193-199
Iron-Ore (Electric) Smelting. By Dr. Mohammed A. Kassem.	145-149
Isotropic (Nominally) Aluminium Alloy Under Combined Stress Systems, The Creep of a, at Elevated Temperatures. By A. E. Johnson, M.Sc., M.Sc. Tech., A.M.I.Mech.E.	125-139
M	
Magnets (Permanent), Induction Brazing Methods Applied to, By D. Hadfield.	165-166
Management in the Foundry Industry.	124
Measurement and Characteristics of Casting Fluidity. By V. Kondic, B.Sc., Ph.D.	246-248
Metal Industries, Electric Furnaces in the, By G. Reginald Bashforth, F.I.M.	304-307
Metallurgical Achievements of the Electron Microscope. Review of the Literature to the end of 1948. By G. A. Geach, M.Sc., Ph.D., F.I.M.	319-326
Minerals and Civilisation.	123
N	
Nickel Alloys, Sand Cast, By W. H. Richardson, B.Sc., A.I.M.	3-14
Norwegian Plant, Visit to, (Iron and Steel Institute Summer Meeting).	105-108
O	
OPTICAL METHODS CONFERENCE.	
Phase Contrast Microscopy.	
Principles.	273-274
Metallographic Applications.	274-275
Discussion.	275-276
The Reflecting Microscope.	
Principles.	276-277
Metallurgical Applications.	277
Dutch Reflecting Microscope.	277-279
Discussion.	279

	Page
<i>Multiple Beam Interferometry.</i>	
Principles.	279-280
Metallurgical Applications.	280
Discussion.	280-281
<i>General Discussion.</i>	281
Oxygen, Indicator for Small Amounts of, in Reducing Furnace Atmospheres. By G. W. Rathenau and H. de Wit.	114
Oxygen in Metals, The Estimation of, by Hydrogen Reduction. By W. A. Baker, B.Sc., F.I.M.	188-189

P

Packaging of Engineering Equipment. Report by P.E.R.A.	272, 281-282
Perchloric or Sulphuric Acid Solutions, The Electrolytic Estimation of Cadmium from, By G. H. Osborn, A.R.I.C., A.M.Inst.M.M.	111-113
Permanent Magnets, Induction Brazing Methods Applied to, By D. Hadfield.	165-166
Phosphate Processes for Iron and Steel with special reference to Rust-proofing. By E. E. Halls.	159-163, 193-199
Powder Metallurgy, Design in, By H. W. Greenwood.	255-256
Production Engineering Research Association, The, (Report of Progress). By Dr. D. F. Galloway, Wh.Sc., M.I.Mech.E., M.I.P.E., A.M.I.E.E., B.Sc.Hons., M.Inst.Pet.	327-331
Productivity in Foundries.	294

R

Radio-Frequency Induction Furnaces. (A New Metropolitan-Vickers Unit).	336
Recovery of By-product Metals in the Smelting of Copper Alloy Scrap. Survey of Published Information. By Marjorie E. Whitaker, B.Sc., A.I.M.	295-304
Recruiting and Training for the Iron and Steel Industry.	144
Research, Government Sponsored,	109-110
Resistance Welding Coated Steel.	338
Resistance Welding Machines.	178
Royal Show, Aluminium Building for the,	163-164
Rust-proofing, Phosphate Processes for Iron and Steel, with special reference to, By E. E. Halls.	159-163, 193-199

S

Salt Baths (Cyanide-Containing), Casehardening Steels in, By F. D. Waterfall, F.I.M.	29-36, 43
Sand-Cast Nickel Alloys. By W. H. Richardson, B.Sc., A.I.M.	3-14
Silicon Iron (Acid-Resisting), High Duty Applications of, By R. V. Riley, Ph.D., B.Sc., A.I.M.	185-188
Slip, The Dislocation Theory of, By F. R. N. Nabarro.	199-205
Smelting, Electric Iron-ore, By Dr. Mohammed A. Kassem.	145-149
Smelting of Copper Alloy Scrap, The Recovery of By-product Metals in the, Survey of Published Information. By Marjorie E. Whitaker, B.Sc., A.I.M.	295-304

Sponsored Research, Government,	109-110
Steel Bill, Opposition to Principle of,	68
Steel-making for Castings. By E. C. Piggott.	155-158, 190-193
Steel Nationalisation. By R. W. Allott, M.A.	143-144
Steel Plants, Educational Work in,	307
Steels (Casehardening) in Cyanide-Containing Salt Baths. By F. D. Waterfall, F.I.M.	29-36, 43
Steels, Interplanar Spacings of Carbides in, By H. J. Goldschmidt, M.Sc., A.Inst.P.	103-104
Steel, Some Factors Involved in the Hardening and Tempering of, Dr. Morris Cohen.	308-312
Stress (Combined) Systems, The Creep of a Nominally Isotropic Aluminium Alloy under, at Elevated Temperatures. By A. E. Johnson, M.Sc., M.Sc. Tech., A.M.I.Mech.E.	125-139
Sulphuric or Perchloric Acid Solutions, The Electrolytic Estimation of Cadmium from, By G. H. Osborn, A.R.I.C., A.M.Inst.M.M.	111-113

T

Tempering and Hardening of Steel, Some Factors Involved in the, Dr. Morris Cohen	308-312
Titanium (Ductile), the Preparation and Some Properties of, By H. W. Worner, M.Sc.	69-76
Tungsten, The Addition of, to Cast Iron. By J. E. Hurst D.Met., F.I.M., J.P.	101-102

W

Welding Abstracts.	88
Welding Exhibition.	224-227
Welding of Aluminium Alloys, The, By W. I. Pumphrey, M.Sc., Ph.D.	239-245
Welding of High-pressure Air-Vessel Assemblies, The, By K. G. Lewis, M.Sc., F.R.I.C., F.I.M.	77-87
Williams Lecture. "Metal Founding through the Ages." Professor Hugh O'Neill.	173

CORRESPONDENCE

Copper and Copper Alloys. Georges Blanc and E. Voce	88
